

Corporate Mission

M edikit is a global medical technology company whose goal is to fundamentally improve the quality of health through our medical devices.

We take our social responsibility seriously and have a positive vision for the future: to become an organization that, by helping minimize unnecessary suffering and death from disease, will be recognized and respected as one of the world's most reliable and best performing companies.

O ur mission is to deliver the highest standards of excellence in everything that we do for our stakeholders.

We are proud to operate as a health care company whose products and services help to enhance healthy life.

We are committed to being reliable, honest, and trustworthy in all our activities. We will keep our promises and initiate further developments for the benefit of the international medical industry.

Q uality is the cornerstone of our organization. This fundamental corporate policy drives us to seek continuous improvements by developing, manufacturing and supplying ever better products and services.

We constantly monitor our progress, study our successes and shortcomings, and learn from other sources in pursuit of further improvements. Our mission is defined by how well we serve our customers with quality devices. We will continue to seek improvements in everything we do.

E very member of our team sets great store by individual involvement and accountability and is prepared to accept personal responsibility for his or her actions.

W e reaffirm our pledge to make every effort to provide products and services that are manufactured to the highest standards in order to satisfy our customers' needs for quality and functionality and to provide service that is based on assured excellence.
